Climate and Nature Charter

The Rotherham Together Partnership has created a **Climate and Nature Charter** to encourage organisations across Rotherham to take action now, leading the way and making a difference to their communities.

This Charter recognises that action means something different to each organisation.

Signees of the Charter are encouraged to take a flexible and innovative approach to the delivery of these commitments. This could be through the way an organisation runs its business, leading the way through digitalisation, or by interacting and sharing knowledge with partners and supply chains.

By signing this charter (overleaf), you are demonstrating your commitment to taking action on climate and nature recovery.

You are pledging to take action now, irrespective of where your organisation is in its journey towards sustainability.

Support is available from Rotherham Council's Climate team to help you deliver on your commitments. Please contact: climate@rotherham.gov.uk for further information.

Working together for Rotherham

ROTHERHAM
TOGETHER
PARTNERSHIP

By pledging to take action now, your organisation is making a commitment towards delivering the following core principles:

1. **Create** and deliver a Climate Change Action Plan to achieve net-zero by 2040
2. **Plan** for the impacts of climate change
3. **Act** as leaders throughout Rotherham in relation to climate and nature crises
4. **Rethink** the materials we buy and use - refuse, reduce, reuse, repurpose and recycle
5. **Work** towards the removal of single-use plastics from our operations
6. **Collaborate** with partners, share our knowledge, and promote work that is taking place
7. **Support** our local supply chains and encourage green regional growth
8. **Protect** nature and support its recovery
9. **Encourage** others in Rotherham to reduce their impact on the environment
10. **Be transparent** set targets and report on them
